**2 Chairs** Bob Beaudine,2016-08-23 In this inspiring book, Bob Beaudine helps you live a life guided by your relationship with God by asking three critical questions. In this world you will have trouble. Count on it! It might be something small or something big, but you know you don't have an answer. You've come to a realization there is a limit to what you can do alone. For such times as these, 2 Chairs asks three vital questions: Does God know your situation? Is it too hard for Him to handle? Does He have a good plan for you? Following these questions, Bob Beaudine offers seven practical steps to walk courageously, faithfully, and cheerfully through your trouble whether it is a minor issue or a major crisis.

**100 Midcentury Chairs** Lucy Ryder Richardson,2017-02-07 Pull up a chair (or 100) for this midcentury design showcase. Here is a stylish guide to the top 100 most interesting, most controversial, or simply most beautiful chairs designed between 1930 and 1970. Get to know the designers of the Modern era, including the Eames, Jacobsen, Nakashima,

Noguchi, Wegner, and many more, through their creative and unique chair designs. With notes on materials, manufacturers, and construction, entertaining quotes by designers and fans about each chair, a brief biography of each designer, the stories behind the designs, and even a 'chair timeline' showcasing the very best of European, Scandinavian, Japanese, and American design, 100 Midcentury Chairs And Their Stories is a must for Midcentury enthusiasts and design history fans everywhere.

**500 Chairs** Ray Hemachandra, 2008 Rustic or refined, traditional or whimsical, functional or just plain fun, these imaginative thrones, rockers and chaises have one thing in common; more than merely places to sit, they are sculptural works of art. The work of today's top furniture artists, will charm, provoke and inspire you and make you rethink the very meaning of 'chair'.

**Now I Sit Me Down** Witold Rybczynski, 2016-08-23 Have you ever wondered where rocking chairs came from, or why cheap plastic chairs are suddenly everywhere? In *Now I Sit Me Down*, the distinguished architect and writer Witold Rybczynski chronicles the history of the chair from the folding stools of pharaonic Egypt to the ubiquitous stackable monobloc chairs of today. He tells the stories of the inventor of the bentwood chair, Michael Thonet, and of the creators of the first molded-plywood chair, Charles and Ray Eames. He reveals the history of chairs to be a social history--of different ways of sitting, of changing manners and attitudes, and of varying tastes. The history of chairs is the history of who we are. We learn how the ancient Chinese switched from sitting on the floor to sitting in a chair, and how the iconic chair of Middle America--the Barcalounger--traces its roots back to the Bauhaus. Rybczynski weaves a rich tapestry that draws on art and design history, personal experience, and historical accounts. And he pairs these stories with his own delightful hand-drawn illustrations: colonial rockers and English cabrioles, languorous chaise longues, and no-nonsense ergonomic task chairs--they're all here. The famous Danish furniture designer Hans Wegner once remarked, A chair is only finished when someone sits in it. As Rybczynski tells it, the way we choose to sit and what we choose to sit on speak volumes about our values, our tastes, and the things we hold dear.

**The Danish Chair**, 2018-12-19 Presents 110 Danish chairs and charts their success at home and abroad from the mid-20th century until the present day In the mid-20th century design became a cultural phenomenon that placed Denmark on the world map. Danish Design emerged in 1949 as a real brand, when American journalists started to write about Danish furniture in relation to a furniture exhibition by Snedkerlauget in Copenhagen. 'Den runde stol' made by Hans. J. Wegner was given the name 'The Chair'. This was not only the beginning of a great export adventure but also a challenge for the Danish designers, who became world recognized for their obsession with creating the perfect chair. The chair has always been the touchstone of designers and the design historians' favourite object. It touches and reflects the body it carries with arms, legs, seat and back. Besides this point, the chair is one of our most culture-bearing design objects and it tells a story about the period and the society from which it was created. In a very unique way this book shows, not just in words but also with

drawings and photos how Danish chairs are built on historical furniture types, which are then refined into the infinite. The message and the explanation for the international success of Danish furniture is this; Danish furniture design is based on foreign culture and the best creations of former times.

**American Windsor Chairs** Nancy Goynes Evans, 1996 Definitive reference on classic American collectible. 744 pages, 1,000 illustrations, checklist of 2,400 chairmakers, more.

Design of the 20th Century Charlotte Fiell, Peter Fiell, 2012 This text is a journey through the shapes and colours, forms and functions of design history in the 20th century. It contains an A-Z of designers and design schools, which builds into a complete picture of contemporary living.

**Chairs by Architects** Agata Toromanoff, 2016-09-13 Revealing pairings of a chair and a building by each architect—featuring fifty-five stars from Calatrava to Hadid Does an architect's style always come across, regardless of medium? Pairing great buildings with great chairs by the same architect, *Chairs by Architects* demonstrates how the defining qualities of a building's style can also be evident in that architect's furniture designs. Pieces of furniture, like manifestos, become signatures of architectural style. The fifty-five architects featured here include early modern architectural pioneers such as Otto Wagner, Charles Rennie Mackintosh, Antoni Gaudí, and Walter Gropius, together with more recent modern masters such as Oscar Niemeyer, Santiago Calatrava, Zaha Hadid, Frank Gehry, and Daniel Libeskind. The book contains interviews on Designing (in conversation with David Adjaye), Manufacturing (with David E. Bright, Knoll, Inc.), Selling (with Zeev Aram), Collecting (with Richard Wright), and Preserving (with Susanne Graner, Vitra Design Museum). This is essential reading for everyone concerned with design, architecture, and the relationship between creators and their creations.

**Just Chairs** Patricia Bueno, 2004-03-30 In addition to being a basic item of furniture to be found in any home, the chair reflects social and aesthetic changes throughout history, provides an ideal medium through which to experiment with new materials or technologies, and challenges the creativity of designers devising new ways to defy gravity's immutable laws to provide support for the human body. Through vivid photography and commentary, *Just Chairs* describes all facets of chairs, classic designs that have withstood the test of time to revolutionary and modern creations from young designers transforming the chair into an object of art. After a brief introductory history of the chair, this visual history features chairs designed from the world's most famous designers including Gerrit Thomas Rietveld, Eileen Gray, Mies van der Rohe, Le Corbusier, Marcel Breuer, Alvar Aalto, Charles and Ray Eames, Eero Saarinen, Arne Jacobsen, Harry Bertoia, Verner Panton, Eero Aarnio, Ettore Sottsass, Vico Magistretti, Oscar Tusquets, and others. A complete and inspirational look at the too-often-overlooked machine that is the chair, the book is a charming and inspirational resource not only for interior designers but also for all those wishing to find the perfect chair for their lifestyle.

*Eames* Gloria Koenig, 2013 Though they are best known to the general public for their furniture, the husband and wife

duo of Charles and Ray Eames were also forerunners in the fields of architecture, industrial design, photography, and film. This book covers all aspects of their career.--From book jacket.

They are world-famous for their inimitable, democratic designs which bridge the gap between crafts and industrial production. The marriage of beautiful organic forms with everyday functionality is one of the primary strengths of Scandinavian design and one of the reasons why Scandinavian creations are so cherished and sought after. *On the Edge of Your Seat* The Center for Art in Wood, 2016-06-16 Over 200 photos plus insightful essays from a variety of perspectives celebrate the chair the centerpiece of furniture arts over the course of American furniture making in this inspiring showcase of 45 works from 39 artists. These chairs, benches, and stools are sculptural, conceptual, functional (and occasionally dysfunctional) seating, reflecting the dramatic latest evolution since the storied history of chairmaking in Philadelphia. Statements by each of the artists offer their sources of inspiration and creativity. The chairs, set against the backdrop of the world's mass-production and petroleum-based materials, stand as a beacon to the vitality and critical importance of independent artisans and designers in raising the bar of excellence in the built world. A one-of-a-kind history of Philadelphia chair design, with full-page images of 40 historic chairs, is also featured. Compiled by Joshua Lane, the Lois F. and Henry S. McNeil Curator of Furniture, Winterthur Museum, Garden & Library, it details their evolution and makers, and their significance in furniture history.
